

# DARE2WOW

The world of the textile industry is in a process of transformation from what it was in the past to what it is today – new technologies, globalization and ecology are the three main forces that influence this process with the usual pressure on resources, markets for products and fashion. At the same time, improving the quality of the European education and training system has been set as a key target in Europe's strategy for becoming a smart, sustainable and inclusive economy by 2020 (Council of European Union, 2010).

DARE2WOW brings together 7 partners from around Europe to support the development, transfer and implementation of innovative practices that promote cooperation, peer learning and exchange of experience in the area of textile production and exploitation.

## PARTNERS:

Centro de Educación e Promoción de Adultos de Ourense (Spain)

Instituto professionale statale per i servizi aziendali, turistici, grafici, sociali e alberghieri L. Cossa (Italy)

Bulgara Centre for Development (Bulgaria)

AETOI THESSALONIKIS (Greece)

SISU Consulting Ltd. (UK)

IPSIA Luigi Cremona Pavia (Italy)

Biedriba "Islices sieviesu klubs "Ritausma" (Latvia)

Cooperation for innovation and the exchange of good practices  
Strategic Partnership for adult education

## Textile Heritage: From the Wooden Loom Weaving to Digital Art

This project has been funded with the support of the European Commission. This document reflects the views of the authors only, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Project No: 2015-1-ES01-KA204-015869

# PROJECT AIMS

Many methods aim for improving general manual skill in the adult education. Dare2Wow Project aims to offer a flexible learning process – one that uses the innovative access to new technologies and peer-learning opportunities in this area – textile production and exploitation within the clever connection of the two subjects: manual work and digital capability.

## PROJECT OBJECTIVES

### Curriculum for Adult Education in the Textile Production and Exploitation

Research and collection on the three main subjects is to be conducted:

- Textile industrialization
- Textile globalization
- Textile Ecology

Developing questionnaires and interviews on existing knowledge, real life stories and role models.

Creation of Student/Tutor's Handbook .

Creation of Glossary of the industry specific terms .

### Interactive Project Platform

Added to the existing project website, an interactive platform of co-operative games, puzzles and fun to do activities explains the concepts of textile heritage, production, exploitation and ecology in an easy to understand and learn way through the method of “guided discovery” – step-by-step exercises that bring practical knowledge to the learner.
